

I will sing a song to you
And you will shake the ground for me
And the birds and bees and old fruit trees
Will spit out songs like gushing streams
And Jesus will come through the ground so dirty
With worms in his hair and a hand so sturdy
To call us his magic we call him worthy
Jesus came up through the ground do dirty
I will sing a song for to you
And you will stomp your feet for me
And the bears and bees and banana trees
Will play kazoos and tambourines
And Jesus will dance while we drink his wine
With soldiers and thieves and a sword in his side
And we will be joy and we will be right
Jesus will dance while we drink his wine
Jesus will come through the ground so dirty
With worms in his hair and a hand so sturdy
To call us his magic we call him worthy
Jesus came up through the ground so dirty
Jesus came up through the ground so dirty
Jesus came up through the ground so dirty
Jesus came up through the ground so dirty
