

# Darkness Into Light

Paige

They never said that it would be like this  
They never said for me to watch and learn  
Id run ahead but Im afraid of what I'll find  
I think I'll find Ive lost my mind  
Ive really done it this time

Chorus

(Na na na na na na na)  
I don't know where to go  
(Na na na na na na na)  
Ive fallen behind

(Na na na na na na na)

You said You could turn the darkness into light  
I could use some light tonight  
I bet You knew that it would be like this  
I bet you knew just how this all would go  
You seem convinced that there is hope for me to reach for  
But have you tasted the tears that flow?  
How I wish I knew what You know

Chorus

Bridge

Slow down, slow down  
I love You  
Slow down, slow down  
I need You now  
Someway somehow

Chorus
