

## Fall On Evil Days

### Pain Confessor

Do we remember why they're suffering  
None of this seems real  
We see their sadness, it's all madness  
Darkness has descended upon us

All the nameless fears have come true  
Faceless secrets revealed  
All this loathing that we feel inside  
It doesn't justify our deeds

Dead emotions all around us  
Time of sickness begins  
Never believed in tomorrow since day one  
We were walking dead

All the nameless fears have come true  
Faceless secrets revealed  
All this loathing that we feel inside  
It doesn't justify our deeds

Fall on evil days, remember there's no way out  
What is done is done  
Fall on evil days when agony breaks us down  
We murdered love

Pathetic lives, too sick to cure  
There is no medication  
Fall on evil days, we are walking evil ways  
Hand in hand towards hell

Fall on evil days, remember there's no way out  
What is done is done  
Fall on evil days when agony breaks us down  
We murdered love
