

# Monkey Business

Pain

The touch of magic that you thought you once had  
Was wiped out with that smile you forced on your face  
You hide your horns and try to bury things on your...  
There's no give and take in your ugly race

Lie after lie  
Do the same mistakes again  
It's always the same  
Time after time  
Trying to save us from ourselves  
But you're always to lat

I'm not gonna take this shit and I'm not gonna drown  
Again and again you set the rules for us to lay it down  
... and ties decides your destiny from dollar signs  
And when the goddamn boat starts to sink, they don't care who's left  
behind

World domination  
Tries to save us  
Death our savior  
Termination

Stop right up people and vote for your favorite disaster  
The are all corrupted so it doesn't really matter

At night the... pulling up to the clubs  
Expensive dinners, whores on governments credit cards  
They've done this for years then they get busted on...  
Then you sit and cry in court and say you'll pay it back

Lie after lie  
Do the same mistakes again  
It's always the same  
Time after time  
Trying to save us from ourselves  
But you're always to lat

I'm not gonna take this shit and I'm not gonna drown  
Again and again you set the rules for us to lay it down  
... and ties decides your destiny from dollar signs  
And when the goddamn boat starts to sink, they don't care who's left  
behind

I'm not gonna take this shit  
I'm not gonna drown  
I'm not gonna take this shit  
I'm not gonna drown
