Parallel to Ecstasy

(? I feel----calling--?)
I can feel the energy
Feels like I've been up on an experiment on ecstasy
I feel it kicking in again (?--?)
Your only motive, your alive you never die

Searching for those sleepless prayers of your life Come to find out that you been living a lie Realities reflect the shadows in the night Did you ever realize how I know, Like nowhere riding around with a gun Ride around the storm will never stop (?---?) when all the lucky ones get by Re-entering a pain called life Pain is life Life is pain
