

## Babymaker

Pale Saints

Breaking through into the waters heat  
It won't be long, once done, it won't be wrong

It's impossible to understand  
There's no way of knowing and no way out

Take a breath and tear it out  
It's not enough

As the sky gets nearer so does time  
You'll never know what you left behind  
The only way is down

As the sky gets nearer so does time  
You'll never know what you left behind  
The only way is down
