

Fell From The Sun

Pale Saints

You fell from my sun
Now you're feeling so cold
Never thought morning
Could feel so alone
They say you've got to live by doing
She says she felt so alone
They say every day is
Like the sun

Staring at cloud
And your rains falling down
Clouds in the sky
And the hills turn around
They say every day you're living
Should feel as though it were the last
They say hold on to that feeling

You fell from my sun
Now you're feeling so cold
Never though morning
Could feel so alone
They say you've got to live by doing
She felt
They say you've got to keep on trying
For the sun
For the sun
