Kinky Love

Kinky love Kinky I'm mad about you Kinky love I need you so bad I need you kinky love Kinky you're all that I've been thinking of Kinky take me inside and let the honey slide I need you kinky love Good to me Kinky do all the things you should to me Wake up I'm nervous Sleep inside of me Open your gates and let the river free Oh kinky take me inside and let the honey slide I need you kinky love Late at night In my bed as I lie here Somewhere in limbo land Half awake half asleep Halfway somewhere else I know I should be sleeping But how can I close my eyes When you know I understand you're mad And you've got to have your kinky love I know I should be sleeping But how can I close my eyes When you know I understand you're mad And you've got to have your kinky love Kinky I'm mad about you Kinky love I need you so bad I need you kinky love Kinky you're all that I've been thinking of Kinky take me inside And let the honey slide I need you kinky love Oh kinky take me inside And let the honey slide I need you kinky love
