

# High And Low

Palisades

Yo hit em with the high and the low

Quickly always escaping me  
Making it hard to breath  
As you're moving through my mind  
I need to talk to you  
I need to know you  
And words can not describe  
You're paralyzing  
It's hypnotizing  
The way you move  
And I can't get enough  
So captivating  
It drives me crazy  
You're what I need  
And I cant get enough

Won't you take  
Me away to a better place  
Where my hearts  
Skips a beat  
When I see your face  
So take me, take me  
And rearrange me  
Got me feeling high and low  
So won't you take me, take me  
And rearrange me  
Got me feeling high and low  
So take me away

You're finally staring at me  
Your eyes on mine  
Time is standing still  
For you and I

[Tyler Carter:]  
You're paralyzing  
And hypnotizing  
The sight of you  
I can't get enough  
Oh, baby I'm thinking of you  
And I know I got you thinking of me too  
But I'm all choked up  
So I guess it's safe to say I'm blue  
Take me away to a better place

Where my heart skips a beat  
When I see your face  
So take me, take me  
And rearrange me  
Got me feeling high and low  
So won't you take me, take me  
And rearrange me  
Got me feeling high and low  
So take me away  
Take me away

Yo hit em with the high and the low
