

Hide and Seek

Pallas

Can you hear the world outside
Go screaming through the traffic lights
Can you feel the smoke and grime
That follows me to bed
It's been so long
It's been so long

Since I had half a wink of sleep at night
Sleepless like the city though my eyes are burning red

Have you seen a spiders on my wall
They're waiting for you to call
They're spinning flytraps in my dreams
To play hide and seek
Hide and seek
Hide and seek

The windy city streets are filled
With shopping malls and parking lots
California dreamin' of a highway in the sun
Rain is pouring endlessly on shattered hopes and chimney-tops
Tapping at my windowsill
To see if am I still home

Have you seen a spiders on my wall
They're waiting for you to call
They're spinning flytraps in my dreams
To play hide and seek
Hide and seek
Hide and seek
Oh, no!
