

Last of the Summer Wine

Palma Violets

But love isn't easy,
That's just where it goes
Well, I'm loving the high road
And I'll ride alone again!
I'm searching for something
Something I love!
We'll be searching through and right over we go
I'm going again

Over and over and over again
Under and under and under again
Over and over and over again
I'm going again!
Over and over and over again
Over and over and over again
Go, I'm going again!

On my day, fade all the way
Fade on my day
Fade all the way!
