

Impossible Heart

Paloma Faith

I fall in love too easily
I know my heart doesn't think
It just don't care for me
And I know I drop it way too fast
Into a 'where swimming-pool I splash
I don't come up 'till I'm drowned enough
And I stop breathing

Friend, will I ever learn instead?
I just crash and burn
I don't stop and think before
I let myself go

So I got an impossible heart
Come save me
I can't change it
An impossible love, my favourite
I can't take it
That's all left to give
My impossible heart will kill
Before it kills me
I can't stop loving
An impossible love, my favorite
And I can't shake it
You make me go insane

I thought I learned from my past mistakes
It seems your touch did work
It's time to admit
And I know it won't go away
Cause you got your claws on
That's why I can't leave
I can't control myself
I'm stuck
And my heart's bleeding in

Friend, will I ever learn instead?
I just crash and burn
I don't stop and think before
I let myself go

So I got an impossible heart
Come save me
I can't change it
An impossible love, my favourite
I can't take it
That's all left to give
My impossible heart will kill me
Before it kills me
I can't stop loving
An impossible love, contagious
And I can't take it
You make me go insane

So life is against us
So unavailable
Or if you don't like girls

Just boys with the curve
Then I probably want you
I probably need you

Call out my name
I know I hold your hand
So I got an impossible heart
Come save me
I can't change it
An impossible love, my favourite
I can't take it
That's all left to give
My impossible heart will kill me
Before it kills me
And I can't stop loving
An impossible love, contagious
And I can't shake it
You make me go insane

Got an impossible heart
Come save me
I can't change it
An impossible love, my favourite
I can't take it
That's all left to give
My impossible heart will kill me
Before it kills me
And I can't stop loving
An impossible love, contagious
And I can't shake it
You make me go insane
You make me go insane
