

# Love Me as I Am

Paloma Faith

When the dust settles  
And all of our battles are done  
You're still here  
You know me better  
Than no one you read all my scars  
Like a script

Every beating I took along the ride  
Was a blessing in disguise  
And it hurt and I learned oh yeah

When everything's been said and done  
And I know that you're the only one  
It was worth it yeah so worth it

I realize that I get out of hand  
I don't even ask sometimes whatever we do  
We're damned  
I can't apologize for being who I am

Ooh ooh I've done my reconciling  
I'm over compromising  
I need you to see this my way  
And I love me as I am  
Ooh ooh  
Love me as I am  
Love me as I am  
Ooh ooh  
Love me as I am

I was rough round the edges  
I tried to get ahead just make sense  
Of this world  
I am still standing  
And I've been demanding a lot  
I got knocked down

Every beating I took along the ride  
Was a blessing in disguise  
And it hurt and I learned oh yeah

When everything's been said and done  
And I know that you're the only one  
It was worth it yeah so worth it

I realize that I get out of hand  
I don't even ask for you to understand  
Mmm and sometimes whatever we do  
We're damned  
I can't apologize for being who I am

Ooh ooh I've done my reconciling  
I'm over compromising  
I need you to see this my way  
And I love me as I am  
Ooh ooh  
Love me as I am

Love me as I am  
Ooh ooh  
Love me as I am

I want you to love me  
Ooh ooh  
Love me as I am  
Stay right here  
Ooh ooh  
Love me as I am  
Oh don't you give up on me  
Love me as I am
