

# Love Only Leaves You Lonely

Paloma Faith

They say it gets better  
But it's bittersweet  
You don't know how it feels  
To sleep right where you used to be  
And your smell used to linger  
I need to wash my sheets  
They're stained with memories  
I wonder if you think of me

Forever really don't (don't)  
Last too long  
Cause all I had to give (give)  
For us has not been enough

Oh love  
Just left me lonely  
I ain't got nobody to call my own  
Oh, love  
Just made my heart ache  
Our way is a mistake  
Oh, love only leaves you lonely

I sleep with the TV on and write the saddest songs  
Cigarettes and alcohol  
Have become my only escape  
I dream of my favourite child  
No, I won't have to wait while  
It hurts so much to smile  
But even the strongest can break

Forever really don't (don't)  
Last too long  
Cause all I had to give (give)  
For us has not been enough

Oh love  
Just left me lonely  
I ain't got nobody to call my own  
Oh, love  
Just made my heart ache  
Our way is a mistake  
Oh, love only leaves you lonely

I'm left with nothing but a twisted dream  
There must be someone out there who won't abandon me  
Cause I give so much, but all they ever do is take

Oh love  
Just left me lonely  
I ain't got nobody to call my own  
Oh, love  
Just made my heart ache  
Our way is a mistake  
Oh, love only leaves you lonely  
Love just left me lonely  
Love just left me lonely  
To call my own

Oh, love just made my heart ache  
Our way is a mistake  
Oh, love only leaves you lonely
