

# The Bigger You Love (The Harder You Fall)

Paloma Faith

When you love someone deep, they can't do no wrong  
But when when you love too hard, it's a different song  
You got to take the time, and build it strong  
And get it all together, and watch it grow

The bigger you love, the harder you fall  
Just take it from me, girl  
You've got to start small  
The bigger you love, the harder you fall  
Just take it from me  
You've got to start slowly

You got to start a love right from the ground  
Cause when you start from the top you only come down  
When you give out all your love and get no return  
And that's the only way you got to love

The bigger you love, the harder you fall  
Just take it from me, girl  
You've got to start small  
The bigger you love, the harder you fall  
Just take it from me  
You've got to start slowly

The bigger you love, the harder you fall  
Just take it from me  
You've got to start small

The bigger you love, you love, you love, you love, you love  
The harder you fall, baby  
Take it from me  
Won't you, won't you take it from me  
Oh baby, take it from me  
You've got to start small  
Cause the bigger you love, the harder you fall
