

# When You're Gone

Paloma Faith

When I'm with you my heart sings of a joy  
And everything washes over me and cleans me 'til I'm shining  
For your touch there are no words  
I fly with high hopes in the birds  
And I know there's nothing better 'cause I'm smiling

Everyone I've ever loved has left me lonely  
Every time I let it go I'm high and dry  
Every time I think I'm one and only  
I find myself alone not knowing why

All the mystery and the magic  
You light up what once was tragic  
And I know that I will miss you when you're gone  
I could never have imagined  
All the heavens pour with passion  
But I know that I will miss you when you're gone

You tell me that you are different  
I'll be saved and I'll be lifted  
It's not easy but I'm trying to believe you  
All the angels lost their halos  
I have no choice but to let go  
There are times when I feel paper thin and see-through

Everyone I've ever loved has left me lonely  
Every time I let it go I'm high and dry  
Every time I think I'm one and only  
I find myself alone not knowing why

All the mystery and the magic  
You light up what once was tragic  
And I know that I will miss you when you're gone  
I could never have imagined  
All the heavens pour with passion  
But I know that I will miss you when you're gone

When you're gone  
You're gone

Everyone I've ever loved has left me lonely  
Every time I let it go I'm high and dry

All the mystery and the magic  
You light up what once was tragic  
And I know that I will miss you when you're gone  
I could never have imagined  
All the heavens pour with passion  
But I know that I will miss you when you're gone

When you're gone  
You're gone

When I'm with you my heart sings of a joy  
And everything..  
And I know that I will miss you when you're gone.
