

## Even The Stars

Pam Tillis

You're so beautiful, irresistible  
This moment's nothing short of magical  
My heart never had a chance its true  
Even the stars are fallin' for you

I've waited for so long, to be here in your arms  
Right now, I don't care if it's right or wrong  
Tell me what was I supposed to do?  
Even the stars are fallin' for you

Here we are alone at last, together  
Under a blanket of white diamonds in the sky  
Holding on tight  
Just you and I  
And the night

Just like gravity  
The way I fell so deep  
The very first time that you smiled at me  
Couldn't stop now if I wanted to  
Even the stars are fallin' for you

Here we are alone at last together  
Under a blanket of white diamonds in the sky  
Holding on tight  
Just you and I  
And the night

My heart never had a chance, it's true  
Even the stars are fallin' for you
