

Even The Stars

Pam Tillis

You're so beautiful, irresistible
This moment's nothing short of magical
My heart never had a chance its true
Even the stars are fallin' for you

I've waited for so long, to be here in your arms
Right now, I don't care if it's right or wrong
Tell me what was I supposed to do?
Even the stars are fallin' for you

Here we are alone at last, together
Under a blanket of white diamonds in the sky
Holding on tight
Just you and I
And the night

Just like gravity
The way I fell so deep
The very first time that you smiled at me
Couldn't stop now if I wanted to
Even the stars are fallin' for you

Here we are alone at last together
Under a blanket of white diamonds in the sky
Holding on tight
Just you and I
And the night

My heart never had a chance, it's true
Even the stars are fallin' for you
