Killer Comfort

Those safe at home days Are gone for little girls They're out there with the boys Out in the big bad world Intense pressure hanging over my head Tonight I need your super tough lovin' instead Killer comfort Killer comfort Killer comfort All night 'Cause there's a kind of pain That only love can kill And there's a hunger, fame and fortune cannot fill Tender touch is what I'm talking about Don't play games now baby I'm all played out Killer comfort Killer comfort Killer comfort All night It's your air conditioning, tequila, chocolate You're the killer, boy you got it, got it Killer comfort Killer comfort Killer comfort All night Killer, killer, killer All night long

Pam Tillis
