

There Goes My Love

Pam Tillis

There goes the one I used to know, there goes the one that I love so
There goes the arms that used to hold me tight
There goes the reason that I sigh, there goes the reason that I cry
There goes the lips I used to kiss goodnight, there goes my love

You're the first love of my life and you might be my last
I don't want to be another memory in your past

There goes the one I used to know, there goes the one that I love so
There goes the arms that used to hold me tight
There goes the reason that I sigh, there goes the reason that I cry
There goes the lips I used to kiss goodnight, there goes my love

I've got a feelin' for you dear, that's with my night and day
Just because we're far apart don't make it go away

There goes the one I used to know, there goes the one that I love so
There goes the arms that used to hold me tight
There goes the reason that I sigh, there goes the reason that I cry
There goes the lips I used to kiss goodnight, there goes my love
