Wish I Was In Love Tonight

The stage is set The lights are low Soft music on the radio The sheets are fresh The wine is cold And nights like this Were made for love And now there is only one thing wrong I wonder why I'm all alone

Oh, I wish I was in love tonight Then everything would be alright With someone to love I take a look at all I've got It doesn't really mean a lot With no one to love

I can't help but fantasize Of looking into hungry eyes Instead of all this empty space I reach out and touch his face We take our time, no need to rush That's the way I wish I was

Oh, I wish I was in love tonight Then everything would be alright With someone to love I take a look at all I've got It doesn't really mean alot With no one to love

Oh, I wish I was in love tonight Then everything would be alright With someone to love **Pam Tillis**
