

Sheep dog  
Been nipping at your heels all day  
Sheep dog

Leapfrog  
Don't have a way to stay in line  
And so you're mine

So close  
As gentle as a sleeping baby boy  
You can see a sheep where she lays  
You can keep a temptress at bay  
To keep what's in the DNA  
You should lead them to a new place  
Cocoon a space to say so simply  
Fool these ugly thoughts, what are they

Good guy  
Don't know you when you hide away  
You stay inside

So close  
As gentle as a sleeping baby boy  
You can see a sheep where she lays  
You can keep a temptress at bay  
To keep what's in the DNA  
You should lead them to a new place
