

## Take Pills

Panda Bear

Surely there is  
no substitute  
for company  
my mom's ripping  
off her hands  
one flake at a time  
all her children left the house  
and left her all alone  
but just like she'd tell me  
things get better  
just wait  
and you'll see

take one day at a time  
everything else you can leave behind  
only one thing at a time  
anything more really hurts your mind  
i don't want for us to  
take pills  
anymore  
not that its bad  
i don't want for us to take pills  
because we're stronger  
and we don't need them
