

Don't Worry

Pandora

All the little things that never happen
All the little things we never do
I may go all around the world
Searchin' every corner
Still I know that all I want is you

I don't wanna wait another night
No need to cry, there's no need to fight
I know you and I can make it right

Don't worry, don't you worry

I don't wanna wait another day
Maybe the pain is the price we pay
I know you and I can find a way

Don't worry, don't you worry

Need to find another way of living
Where we could have room enough for us
I have been all around the world
You know that I come down to
So I only wanna share my time with you

I don't wanna wait another night
No need to cry, there's no need to fight
I know you and I can make it right

Don't worry, don't you worry

I don't wanna wait another day
Maybe the pain is the price we pay
I know you and I can find a way

Don't worry, don't you worry

Baby don't you worry

Oh, no

Don't you worry

I don't wanna wait another minute
I don't wanna wait another tear
Now I've been all around the world
And I know I do better
If I could have shared my time with you

Ohhhhhh

I don't wanna wait another night
No need to cry, there's no need to fight
I know you and I can make it right

Don't worry, don't you worry

I don't wanna wait another day

Maybe the pain is the price we pay
I know you and I can find a way

Don't worry, don't you worry
