

You're sweeter, then the stars up in the sky of heartache and y
our lie...
When love will come and bring to me,
it makes me feel so fine...
Open up your heart to me,
let this moment last all night
I wanna show you what to do,
break down your differences,
this is the time to make sweet plump
a time after chances..yeah yeah,
yes it is...

You're sweeter,
then the stars up in the sky of heartache and your lie...
When love will come and bring to me,
it makes me feel so fine...
Open up your heart to me,
let this moment last all night

All night
You're sweeter,
then the stars up in the sky of heartache and your lie...
When love will come and bring to me,
it makes me feel so fine...
Open up your heart to me,
let this moment last all night
All night
all night
all night
all night
all night
all night
