Bunnies

Pansy Division

I've never been in anything like this before We take off our clothes before we're in the door Eight hours of work is especially tough When three times a day is barely enough I got the carrot, you got the stick You start to nibble I start to lick And we get our bodies all hot and sweaty and runny Then we fuck like bunnies Showing up early catches me off guard Hearing your knock on my door gets me hard You drive me rough like a pick-up truck It's a never-ending nonstop boy fuck Chorus it's been days and days since i've seen my friends Burning the candle with you at both ends We might burn out like a supernova But for the moment, please roll over Chorus
