

## Like Fire

Pantera

Don't get in her way, a sharp shooter that never miss  
She's comin' on like a hurricane, might burn your finger  
tips  
Her eyes could blow your mind with a look right on the  
spot  
And once she starts, she'll tear you apart, boy she makes  
it hot  
She's  
LIKE FIRE, she's burning hot, everything she's got  
LIKE FIRE, tearing up the night, like dynamite  
LIKE FIRE, spreading through the town, you'll never slow  
her down  
LIKE FIRE

She's got everything it takes, to keep you satisfied  
She'll get you down, let her hands do the talking, ain't  
no place to hide  
'Cause she's over me and she's under me, she's everywhere  
I turn  
Get on her knees, just a' screamin' to please,  
Take a chance on gettin' burned  
She's  
LIKE FIRE, she's burning hot, everything she's got  
LIKE FIRE, tearing up the night, just like dynamite  
LIKE FIRE, spreading through my town, you'll never slow  
her down
