

## Virus

Panzerchrist

Your blood in your vein  
Becoming back  
No time left

And now your body dies  
Blood flows out of open cracks  
In your skin  
Leaving you just time to think  
What you have done wrong  
And you're not comfortably numb

And so the final process sets in  
No God, no religion  
Can save you now

And the feeling's gone  
And you have become part of it

But don't worry,  
It's only nature's  
Revenge!
