

## Done with You

Papa Roach

I count the days that we have spent apart  
I've got a bad liver and a broken heart  
There's no salvation in the comfort of you (comfort of you)  
And I finally realize your tearing me apart

So help me, save me,  
Tell me that the end is near  
Help me, save me  
Tell me that the end is here  
I am done with you

You've made my life completely miserable  
You drove me to the edge, you've caused me all this pain  
But I always loved you cause your oh, so special  
(oh so special)  
I'm broken and I'm alone and I cannot maintain

So help me, save me,  
Tell me that the end is near  
Help me, save me  
Tell me that the end is here  
I am done with you

Done with you ( I am done with you )

I count the days that we have spent apart  
I've got a bad liver and a broken heart

Help me, save me,  
Tell me that the end is near  
Help me. save me  
Tell me that the end is here

I am done with you  
Because you and me are through  
You couldn't help me, you couldn't save me  
Now I know the end is here  
I am done with you
