

# Live This Down

Papa Roach

I always thought I could trust you  
But I guess that's not the case  
All the years that I loved you  
You were out there playin' the games  
You didn't think that I would find out  
It was written all over the place  
Is it what you really want now  
Then get the fuck out of my face

How could you deceive me  
I'm begging you to leave me

Go to hell... I'm better off without you  
All is well... I'd rather be alone  
To have you  
To hold you  
And never know you cuz  
You sold me out  
You're never gonna  
Live this down  
Never gonna  
Live this down

How do you look in the mirror  
How do you stand the sight of your face  
If ya made it any clearer  
I coulda seen right through the hate  
And I'll never think about you  
While I'm sleeping with all of your friends  
And I'm prayin' that ya find out  
Cuz love is the sweetest revenge

How could you deceive me  
I'm begging you to leave me

Go to hell... I'm better off without you  
All is well... I'd rather be alone  
To have you  
To hold you  
And never know you cuz  
You sold me out  
You're never gonna  
Live this down  
Never gonna  
Live this down

I always thought I could trust you  
I always thought I could trust you, GO!  
I always thought I could trust you  
I always thought I could trust you

Go to hell... I'm better off without you  
All is well... I'd rather be alone  
To have you  
To hold you  
And never know you cuz  
You sold me out

You're never gonna  
Live this down  
Never gonna  
Live this down...
