

# Lovehatetragedy

Papa Roach

Human behavior  
Peculiar it seems  
Some thrive on hate  
Some love the dream  
Everyone's got a purpose and wants to be loved  
I think I found my purpose  
I think I found love

Hidden inside myself

Tragedy  
Strikes when you least expect it

Hate and destruction crashed down on our world  
The stars and the stripes  
The boys and the girls  
It's sad it took war just to bring us together  
I believe in love  
I believe in forever

Hidden inside ourselves

You better run  
You better run  
For your life  
For your life  
Shed a tear  
Shed a tear  
Live in fear

Tragedy day  
Tragedy day  
Tragedy day
