

# Renegade Music

Papa Roach

It's dark outside  
A world on fire that no one's safe from  
It's life or death  
So hold your breath, or suffocate them  
Provoking fears, with smoke and mirrors  
The tension's rising  
We waste our time, and wait in line  
While nothing changes

But nothing changes,  
Until the people get loud

So get down,  
Everybody, everybody get down  
Take it to another level right now  
No resolution,  
Stand up this is renegade music  
Rawr,  
Everybody, everybody get down  
Take back your life right now  
Are you ready for some new shit  
Stand up this is renegade music

A house in flames  
Is not contained, the neighbors watching  
But no one moves,  
They live by rules that give no options  
What don't prevail,  
Can tell no tales, a dead man walking  
To replicate,  
Is playing safe, and nothing changes

But nothing changes,  
Until the people get loud

So get down,  
Everybody, everybody get down  
Take it to another level right now  
No resolution,  
Stand up this is renegade music  
Rawr,  
Everybody, everybody get down  
Take back your life right now  
Are you ready for some new shit  
Stand up this is renegade music

So get down,  
Everybody, everybody get down  
Take it to another level right now  
No resolution,  
Stand up this is renegade music  
Rawr,  
Everybody, everybody get down  
Take back your life right now  
Are you ready for some new shit  
Stand up this is renegade music
