

# Warriors

Papa Roach

We are the warriors  
We are the warriors  
We are the warriors  
We are the warriors

It feels like we are headed for a meltdown  
I'm sweating as the seconds start to run out  
I know that there's a glitch in the system  
We're breaking down the walls of this prison

We are the warriors  
We are the warriors  
We are the warriors  
We are the warriors

Shine your light  
Push the enemy back  
When you're under attack  
It will protect you  
Kill the night  
All we need is a spark  
We can bury the dark  
Ignite - Come on and shine your light

We throw our misery in the inferno  
Illuminate our lives we are eternal  
United in a head on collision  
We sacrifice ourselves for the mission

We are the warriors  
We are the warriors  
We are the warriors  
We are the warriors

Shine your light  
Push the enemy back  
When you're under attack  
It will protect you  
Kill the night  
All we need is a spark  
We can bury the dark  
Ignite - Come on and shine your light  
Come on and shine your light

Madness karma  
Surrounds me as a follower  
Bad shit happens to all of us  
Is actually a fabric - a garment  
You know I didn't last this long  
Being anything less than a warrior  
Average - no - Savage  
Better that than a has been - a goner  
Look up the lord tell em shine your light

We are the warriors  
We are the warriors  
We are the warriors

We are the warriors

Shine your light  
Push the enemy back  
When you're under attack  
It will protect you  
Kill the night  
All we need is a spark  
We can bury the dark  
Ignite - Come on and shine your light

We are the warriors  
We are the warriors  
We are the warriors  
Come on and shine your light  
We are the warriors  
We are the warriors  
We are the warriors  
Come on and shine your light
