## Afterall

**Papas Fritas** 

Here's the party where's my friends? Pulling smoke through soda cans So who's the people with the peepholes in their smiles Think I'll skip the party and stay inside Your house My home Two words Your alone I'll leave you waiting Changing has changed me And wine isn't change cheap All that's left is a phone to call Afterall Something special in the end Said the dotted line to the fountain pen Just stay on course, stay in tune and wait in line In the basement lost track of time I know It's late Sometimes shit has to wait Maybe I'm lazy Time couldn't change me I don't need a stair to fall
