

Just To See You

Papas Fritas

I live my life just to see you
Remember what you said - I believed you
I'd never danced so fast - I got tired
But now we step so slow in the quiet

We got love so I won't let it be

I threw my stones to the river
Swam to your front door to be delivered
Your father showed me in to the fire
Your mother said to me she seems tired

I live my life just to see you
Help me understand what you've been through
Cause I can't reach my dreams if they're silent
