

Live By The Water

Papas Fritas

We've been living in the city such a long time
Maybe we should live by the water
I'll shape up and you'll fill out and we could buy a house
Maybe even have us a daughter

Cause the city brings the man out in the man
And it makes it hard for me to understand
Your feelings

I'm so tired of catching trains and coming home late
I might even try and cook dinner
I'll make contacts in the trees the boss says I could
He thinks I should live by the water

Shut the door and dim the lights and fix yourself a drink
I got something we should consider
We've been living in the city such a long time
Maybe we should live by the water
