

Carousel

Paper Route

You and I are gonna get it right
Don't let me go
It takes two to make a leader but
One has to follow
Help me, help me understand
What we've become
I found a God who never seems to
Play the victim

On and on and on we go
Just like a carousel that's lost control
And we don't know why, we don't know why
We go and go and go in circles

I wanna change more than anything
Just as you're leaving
Every room is an apology
That's lost it's meaning
You and I, I think we're better off
We found each other
And what's right, we are the
We're spinning further

On and on and on we go
Just like a carousel that's lost control
And we don't know why, we don't know why
We go and go and go in circles
On and on and on we spin
To - ends, beneath begins
We don't know why, we don't know why
We go we go we go in circles

On and on and on we go
Just like a carousel that's lost control
And we don't know why, we don't know why
We go and go and go in circles
On and on and on we go
Just like a carousel that's lost control
And we don't know why, we don't know why
We go we go we go in circles
