

# Letting You Let Go

Paper Route

Did somebody  
Did somebody hurt you  
Did somebody drag you down  
Heavy is the head that wears the crown

Did ya  
Did ya ever tell me  
Cause I never heard a sound  
Was it easier to show me somehow

You always wanted the best around  
So you messed around  
On the blessed ground we stood  
Well it's now or never

I don't wanna hurt forever  
I don't wanna keep on feeling  
I just wanna say what we both know  
I'm letting you let go  
Let go

Did I  
Did I ever hurt you  
Did I ever drag you down  
Heavy is the head that wears the crown

Standing  
Standing in the doorway  
I don't wanna hear a sound  
If you gotta go then I'd go now

You always wanted the best around  
So you messed around  
On the blessed ground we stood  
Well it's now or never

I don't wanna hurt forever  
I don't wanna keep on feeling  
I just wanna say what we both know  
I'm letting you let go  
Let go

I'm saying it's now or never  
I swear that it's now or never  
I don't wanna hurt forever  
I don't wanna feel  
Let go
