

Thank God the Year is Finally Over

Paper Route

I saw you there on Christmas Day
In my ear I heard you say
Thank God the year is finally over
Thank God the year is finally over

I saw you there, your tired eyes
I took your hand, into the night
Thank God the year is finally over
Thank God the year is finally over

I heard your voice, you held my breath
You opened doors not opened yet
Thank God the year is finally over
Thank God the year is finally over
