

## Tiger Teeth

### Paper Route

You have my attention  
You're cutting through the silence  
Cutting through my heart  
Milk teeth couldn't hold me  
You thought I would surrender  
It's pulling us apart

So I try try try try try  
I can never get it right  
Will I ever get it right my baby  
So I try try try try try  
I can never get it right  
Will I ever get it right my baby

Nothing I could ever fuel your  
Appetite for reasons  
You're always wanting more  
You've trapped my attention  
And I can almost hear you  
You're right outside the door

So I try try try try try  
I can never get it right  
Will I ever get it right my baby  
So I try try try try try  
I can never get it right  
Will I ever get it right my baby

You have tiger teeth  
Wrapped around me I swear  
You have tiger teeth  
Wrapped around me I swear  
You have tiger teeth  
I'm begging you I swear  
You have tiger teeth  
Wrapped around me I swear

So I try try try try try  
I can never get it right  
Will I ever get it right my baby  
So I try try try try try  
I can never get it right  
Will I ever get it right my baby
