

## Aim Shoot

Papoose

Yayo got the whopper, it spit longer than Papoose  
Longer than Pap, longer, longer than Pap  
Papoose, aim, shoot  
Papoose, aim, shoot  
Papoose, aim, shoot

Straight out the big apple it's Papoose and the Mobb  
The apple was nothing without me like Steve Jobs  
At the dice game, keep a mag on me  
Why would I let another man ask bet me  
I'm the best like Khaled, I bang if I should  
A nigga gotta pay me if he throwin ace in my hood  
So the drug dealers wet work, beat all the pushers  
When you was still in yo moms crib, eatin your boogers  
I live the fast life, that's why I stay in a hurry  
Papoose be killing the mic like Doctor Murray  
King of New York, cop the caliber  
My raps off the wall like a 2011 calendar  
Why everybody out of character?  
They all mad at me, I got em pissed like a catheter  
Champion, I'm not ya challenger  
Stop amateurs like the sandman, Banks how we handle em?

Yayo got the whopper, it spit longer than Papoose

I'mma carry the problem fixer, I wanna argue wit ya  
Nigga you a target misser  
The wrath of God will hit ya, with a horror picture  
Call this rap takeout, you know Mobb deliver  
Too hard for the hardest nigga, they fold like cardbord  
Handle that now, nigga ain't no encores  
? a little heavy, so it leave the arm sore  
Y'all want war, gave you what you starve for  
All my shooters buy products of the worst recession  
Aim for the dome and laugh when they purchase vests'  
Cause that shit right there, is irrelevant  
Niggas walk around here, with shit to kill a elephant  
So your next move better be your best move  
Like a chess move or get yo chest moved  
Cause when we come through you better have ya guns too  
Cause all we do is \*aim shoot\* all we do is \*aim shoot\*

Back from hell, sorry I left you without no hard shit to step to  
The drought is done, it's rain season  
You can't stop my storm, you can't slow up my flow up nah (uh uh)  
It's gonna pour cats and dogs  
Thunder and lightning bolts, knock the lights off  
When I black out make you miss me like  
Nigga, where you been at? Word  
Bout tired of the soft shit, it gets boring  
They look like punks and act like a woman  
You need danger, a little aggression  
You need excitement I put a little pressure  
Just to, balance things out, we're not the same  
Some niggas is live, some niggas is lame  
Some is real or some is fake  
You draw the line in the sand, which side you claim?
