

Where I Come From

Papoose

The stars let the road is bringing me back home
With bitter dreams open eyes and broken wings
No matter how far you're always on my mind
I don't know where you are but still how you always by me

So why am I feelin' so alone
Lookin' back you were the only one
And I feel so far from home
Wherever you are is where I come from

Have I lost control words it ever might
I'm trying so hard to hold unto my peace of mind
Through all of these years at times you felt like a ghost
But you were here when I needed you the most

So why am I feelin' so alone
Lookin' back you were the only one
And I feel so far from home
Wherever you are is where I come from
Wherever you are is where I come from

Why am I feelin' so alone
Lookin' back you were the only one
And I feel so far from home
Wherever you are is where I come from

Wherever you are is where I come from
Wherever you are is where I come from
