

## Commin Inna

Paprika Korps

Now we commin inna, commin inna weed'n inspiration  
With the drum and bass to another dimension  
Everyday we struggle and trying to get higher  
Let your bad thoughts burn like a ritual fire

This ya weed'n inspiration, dub commin a vibration  
a human revelation of my world  
Years ago explorers travelled around the globe  
But my expedition needs only non-chemical probe  
Keep it illegal, it can only do harm  
Too narrow minded to keep calm  
Discover your role, tell me why you're here  
Is the babylon train gonna crush you?

This ya blind connection, not worth imagination  
Of people whose eyes don't see  
Their ears aren't prepared for those riddims and those facts  
Their pride is following their thoughts  
This bass line is legal it can do no harm  
It can only be awareness for them  
So you must discover your role tell me why you're here  
Is the babylon train gonna crush you?
