

Facts Of Life

Paprika Korps

You can't just breath to prove you're still alive
Collapsing in the sad existance, face behind the mask
Making only little steps, you won't surprise anyone

The facts of live, the power of living
The facts of live, the power of living
The facts of live, the power of living
The facts of live, the power of living

Now we are carrying the heavy, heavy load
But life starts and life ends, you just don't seem to care
Making only little steps, you won't surprise anyone
You can't just breath to prove you're still alive
Collapsing in the sad existance, face behind the mask
Making only little steps, you won't surprise anyone
