

Made Of

Parabelle

I'm not the best in person
Sometimes the destinations end between your memories
And your fingertips softly touching me

Stay strong, beside you is where I belong
I look real close and I see what you're made of
It's just dust and air nothing to spare
I said it all when I said...

My words have limitations
They have the best intentions
But all I see is you and me
I cannot see you without me
I held back, for so long
But this is where we are now
Can you believe that you are here with me

Stay strong, beside me is where you belong
Just look real close and you'll see what I'm made
It's just dust and air, nothing to spare
You said it all when you said you weren't scared
To face the world with me
I'm letting go, you have my all
And I say my darling, I'll spend my world with you
It wont be overated, all the fate says how the hell'd I get so
jaded

You bring me back to a place where I can see
You bring me back and you fix the broken part of me
And together we'll stay strong
Cuz this is where we belong
They'll look real close and they'll see what we're made of
Its just dust and air but nothing compares
We said it best when we said we weren't scared
