

Whore

Parabelle

Leave your cares alone
All the way back home
You will never shake like you did with me
I'm the best you'll know
Said the narcissist as a self defense as a way to make you proud of him

I thought it was an epidemic at least thats what I thought you told me we're never gonna find out this way

Shut your eyes and make me your whore
Make it hurt like I want it to
And you know I'll be begging for more
And you know that I'm willing to...

leave your eyes alive
They're a sign you caved
Does it bother you, like it bothers me
I'm not the only one who loves the outer piece
An eternal grace will never hold my charm

I thought it was an epidemic at least thats what I thought you told me we're never gonna find love this way are we?

Shut your eyes and make me your whore
Make it hurt like I want it to
And you know I'll be begging for more
And you know that I'm willing to...

hurt, if we carry on, I feel it the most when you make it hurt
but in my eyes this is not right.

Shut your eyes and make me your whore
Make it hurt like I want it to
And you know I'll be begging for more
And you know that I'm willing to...

blind my eyes
