

# Waiting For That Call

Parachute

There's a new wave  
There's a blank screen  
There's a black line  
Where your name should be  
I can feel it  
But I can't see  
There's a strange song playing on the radio

I, I've been waiting for that call  
Trying to get busy  
I, I've been waiting for that call  
Oh you know  
I'm an animal  
I'm a cigarette  
If I'm burning out  
Then I'm not done yet  
Baby I, I've been waiting for that call

I can't move on  
I can't walk away  
Cause there's no one else  
Who could take your place  
I can see the light  
Then I hear my name  
And I know deep down  
I'm gonna be okay  
Oh you never know  
When it's gonna hit  
If you think you do  
Then you don't know shit  
It's a long day waiting on the world to end

I, I've been waiting for that call  
Trying to get busy  
I, I've been waiting for that call  
Oh you know  
I'm an animal  
I'm a cigarette  
If I'm burning out  
Then I'm not done yet  
Baby I, I've been waiting for that call
