

Light Me Up

Parade

You gotta light me up
I'm not feelin'
A romantic boy
But if you think you're worth it
Light me up up up
Light me up up up
Got my girls with me running
We're running free
Lovin' life and we don't look back
Yeah there's gotta be some chemistry
For a boy to steer me off this track, yeah
I see what you do
Clocked your every move
Think your deal is sealed
But you've got so much to prove
Need to take me higher
Maybe I won't deny ya
But it's gonna take more

Oooh
You wanna get me close
Oooh
In your fantasy
In the dark hopefully pursuing what you see
You gotta, you gotta

You gotta light me up
I'm not feelin'
A romantic boy
But if you think you're worth it
Light me up
When you get my head t-turnin'
Boy you're learnin', learnin', learnin'
Light me up
You gotta smoke me like a cigarette
And keep me burnin', burnin'
Light me up up up
Light me up up up

Yeah we're coming through
I'm seein' you
You make your move
But I don't want that
I said you need to take me higher
Maybe I won't deny ya
But it's gonna take more

Oooh
You wanna get me close
Oooh
In your fantasy
In the dark hopefully pursuing what you see
You gotta, you gotta

You gotta light me up
I'm not feelin'
A romantic boy

But if you think you're worth it
Light me up
When you get my head t-turnin'
Boy you're learnin', learnin', learnin'
Light me up
You gotta smoke me like a cigarette
And keep me burnin', burnin'
Light me up up up
Light me up up up

You gotta light me up
Li Li
You gotta light me up
Fair play
Not many tried harder
Sorry but you gotta wait a little longer
I ain't saying that tonight it's game over
'Cos I told ya

You gotta light me up
I'm not feelin'
A romantic boy
But if you think you're worth it
Light me up
When you get my head t-turnin'
Boy you're learnin', learnin', learnin'
Light me up
You gotta smoke me like a cigarette
And keep me burnin', burnin'
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
Light me up up up
