

Ticking On It

Parade

Every day I have visions, and I get a feeling in me
I wanna be where he's been, so I get everything
He wants from a girl, but I'm not giving too much
I'm ready, come get me, not too quick, not heavy

My heart is racing, should I give the green light?
'Cause getting a little closer gives me butterflies
And I know it's more than friends, 'cause he makes me go crazy
We're into it, let's do it, what is this?

Can we call it love?
Call it love, call it love, call it
Can we call it love?
Call it love, call it love, call it love?

I got something here for ya
Come get it if you wanna
I can't wait any longer
Tick tick tick tick tick tick

So when we say goodbye to the next day
You got me ticking on it
Until the next time when he holds me
I'll be ticking on it

I'll be waiting by the phone 'til it ring, rings
I'll be ticking on it
I got something here for ya
Come get it if you wanna

Close your eyes, open now, can you feel it inside?
When we touch each other, it's so hard to leave you
I'm missing you baby, when you call me your lady
It must be more than lust, so what?

Can we call it love?
Call it love, call it love, call it
Can we call it love?
Call it love, call it love, call it love?

I got something here for ya
Come get it if you wanna
I can't wait any longer
Tick tick tick tick tick tick

So when we say goodbye to the next day
You got me ticking on it
Until the next time when he holds me
I'll be ticking on it

I'll be waiting by the phone 'til it ring, rings
I'll be ticking on it
I got something here for ya
Come get it if you wanna

Woah woah woah woah woah
Woah woah woah woah woah

Woah woah woah woah woah

Can we call it love?

Call it love, call it love, call it

Can we call it love?

Call it love, call it love, call it love?

I got something here for ya

Come get it if you wanna

I can't wait any longer

Tick tick tick tick tick tick tick
