

# Weatherman

Parade

Raindrops keep falling on my head  
Tears they keep falling on my bed  
And I can't be saved by no umbrella  
Dark clouds are blocking my sunshine  
Then lightning falls on me sometimes  
I wish I could predict the weather

I said the weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah  
The weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah

It's raining so hard that I can't see  
Be raining so long since he left me  
And I just don't know why  
I built a river from crying for love  
And it's all because

I said the weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah  
The weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah

I plead the clouds sometimes  
Up up up away I say  
Up up up away I say  
Please make way for the sunshine  
Up up up away I say  
Up up up away

I said the weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah  
The weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah

I said the weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah  
The weatherman oh  
I said the weatherman predicts some rain  
And it's falling from my face yeah

Please make way for the sunshine  
I say up up up away I say  
I plead the clouds sometimes  
Up up up away I say
